COMMERCIAL

SAFE · STANDARDIZED AI ADOPTION

Firm-wide AI your clients can trust.

You bought the licenses. Usage went up, client data went into prompts, and nothing about how the firm works changed. Now clients and partners are asking how you govern AI.

Trusted by **TaxAudit, Horrocks, Battelle Energy Alliance, Navy Mutual Aid Association** and **Allmoxy** · **89+ NPS, measured every year**

Standardized AI Adoption gives your firm one way to build, govern and run AI, without staffing a Center of Excellence. You get a governance model your clients can see, the AI your people already built brought under it, and one practice moved onto governed agents by forward deployed specialists. Then **11:59 Operate** runs what we built.

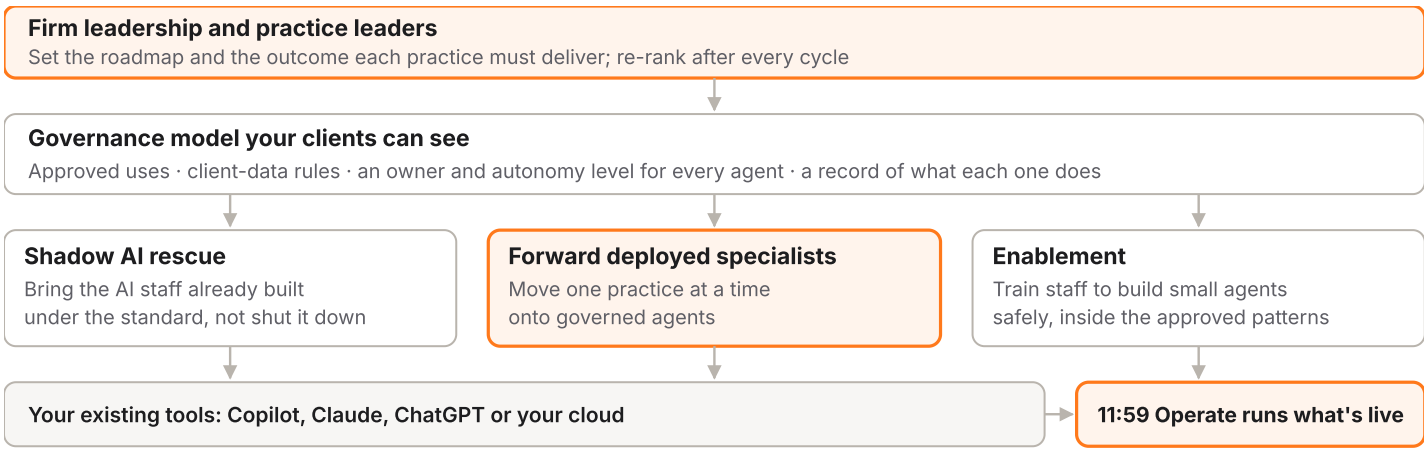

THE PROBLEM

Two ways AI adoption stalls in a firm

LICENSES FOR EVERYONE	LOCKED DOWN UNTIL POLICY IS DONE
Client data in prompts nobody reviews; tools built by whoever was curious	People use personal accounts anyway, because the work doesn't wait
Pilots stop when the one person who built them moves on	Competitors move while the policy is drafted
Risk you can't see	Work that goes around you

HOW IT FITS TOGETHER

The operating model

HOW IT RUNS

From kickoff to agents that run themselves

1. **Set direction**
   Governance model agreed with leadership; inventory of AI already in use.
2. **First practice**
   Specialists move one practice onto governed agents.
3. **Expand**
   The next practice, with staff trained along the way.
4. **Run it**
   11:59 Operate runs the agents and reports monthly.

Scope and length are set before we start, based on how many practices you want to move.

BUYING

How you buy it

	WHAT IT IS	HOW IT'S PRICED
AI Rapid Scan	The AI already in use, your governance gaps and the first practice to move	Fixed fee, scoped and quoted before we start
Standardized AI Adoption	Governance model, shadow AI rescue and one practice moved onto governed agents	Flat monthly fee for the term
Additional practice	The next practice moved by the same team	Flat monthly add-on
11:59 Operate	We run the agents, with a monthly report	Flat monthly fee on an annual term

WHY 11:59

Enterprise discipline, sized for a firm

- **Safe to scale.** Every agent has an owner, tests and an audit trail, and runs in your own AWS account. AWS Advanced Tier Partner with the AWS Generative AI Competency.
- **Your cloud, your data.** Everything runs in your AWS or Azure environment, under your identity provider.
- **Proven partner.** AWS Advanced Tier Partner with the AWS Generative AI Competency.
- **It's yours.** The governance model, patterns and trained people stay with you.

> *Firm-wide AI your clients can trust, one practice at a time, and we run it from there.*

Next step: an AI Rapid Scan

We look at the AI your people already use, your governance gaps and the practice where governed agents pay off first. Scoped to the effort and quoted before we start.

Fixed scope and fee, quoted before you start. 11:59 services are also listed on **AWS Marketplace**, and AWS funding programs may offset part of the cost.
